Note

This corrects the article "Effectiveness of polypill for prevention of cardiovascular disease (PolyPars): protocol of a randomized controlled trial" published on 2020: Volume 23, Issue 08, Pages 548–556.

Correction to: Arch Iran Med. 2020;23(8):548–556. doi: 10.34172/aim.2020.58.

In the original version of this article, the recruitment period was wrongly reported to last from December 2014 to December 2015 in abstract and methods sections of the article. This is corrected into "from December 2015 to December 2016" in the PDF and HTML versions of the article. Also the "PolyIran" is changed to "PolyPars" in the last paragraph of the discussion section in the PDF and HTML versions of the article.
